

READY SET PLAN

Jumpstart your 2023 product portfolio with innovative ways to invest and drive maximum revenues and returns to your lottery's beneficiary programs.

LOTERIA Augmented Reality
Bring popular, authentic LOTERIA to life for your players with a digital extension of the physical instant scratch game unlike anything they've experienced before.

Infuse
Details matter. Our research platform helps you align your marketing strategy for the core components of instant games, create a cohesive performance-driven digital program, and better understand today's players.

Gem | Intelligence
Manage your retailer relationships like a boss with a suite of cloud-based software that keeps you connected and improves retail performance and operational efficiencies.

Sparkle Select
Add some wow to any scratch game with a *Strategic Product Enhancement* proven to impact sales – and unlimited creative options in 10 colors and 15 patterns, that's 150 different combinations!

*Based per capita sales for U.S. The trademark 10X® is owned by and used with the permission of the Multi-State Lottery Association. LOTERIA TM/®: Licensed by Don Clemente, Inc. 2022. All In the Family

Deliver more fun at every price point. There's a game for everyone in our high-performing families of games like our Multiplier families.

Scientific Games Enhanced Partnership

Five of the top six lotteries in the world participate in our performance-driving SGE-P program which manages all aspects of the instant product portfolio. SGE-P is driving 40% higher instant game sales than non-SGE-P lotteries.*

Get In On the Action

Lotteries around the world trust Scientific Games with their sports betting solution, including one of the largest state-sponsored sports betting market in the world.

PlayCentral HD Powered by SCiQ

The intelligent ecosystem of SCiQ comes to award-winning player self-service technology, integrating directly with your retailers' POS systems.

iDecide

Introducing iDecide, a revolutionary new game enhancement that gives your instant scratch game players the option to continue their play experience via a mobile app – and potentially expand their winnings by advancing through levels in a digital game.

Instant Games

Take a look at our portfolio of 100+ digital games from the industry's most innovative instant game designers, a winning combination of exciting play experiences created at our digital game studios around the world.
